"SURFACES THAT CONNECT YOU TO NATURE"

Where nature and interior co-exist!

we believe nature has survived it all. We are just on-lookers who might not be here tomorrow. We take inspiration from these wonders of the world. Just as much as we admire nature, our collection of ceramics is heavily influenced by the divergent tinges of nature. This collection is a personification of elegance, captivating the sight, with an artful touch.

Our motto is to bring spaces alive!

ECO *Grove*

The current environmental scenario has led us all dumbstruck. People are recklessly cutting down trees and harming animals. All these needs arise partly from the demand for hardwood furniture and floors. If you're someone who loves nature, but also doesn't want to harm the environment for the sake of your interior, sit down and relax. We've got the right solution for you!

Our wooden tiles give a posh look, comfort and most importantly, they're 100% environment friendly. Our tiles are not made from wood, so you don't need to worry about deforestation. Our earthenware tiles can accouter your space with a replicating wooden look, finish and give you the same comfortable feeling of living in the lap of mother nature.
